PROJECTS

Weathixor — Real-time Weather Application

- Built a responsive weather app with real-time data from OpenWeather API and city search functionality
- Designed clean, modern UI using Tailwind CSS with mobile-first approach

Calc-Pro — Responsive Calculator

- Built a feature-rich, responsive calculator with real-time calculations and elegant UI
- Utilized advanced DOM manipulation and JavaScript for dynamic functionality
- Enhanced design and development efficiency using AI-assisted tools

Zomato Landing Page Clone

- Created a fully responsive food delivery landing page inspired by Zomato
- Implemented modern UI elements, smooth scrolling sections, and interactive components
